

Light is vision.

OEM Components for Industrial Endoscopy

With our team of well attuned specialists you will obtain complete realization of your product design from one single source. We possess the essential process efficiency to guide your OEM product from pre-study to series manufacturing and after sales service.

R&D Competence

- System Engineering
- Optical Engineering
- Mechanical Engineering
- Electronic Engineering
- Software Engineering
- Thermal Management

Manufacturing Competence

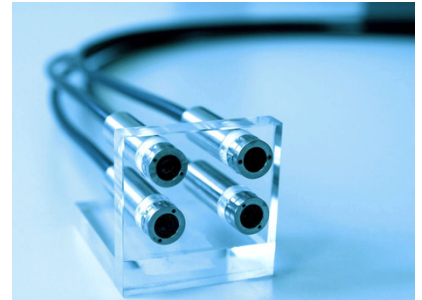

- Resources and Production Planning
- Automated or manual production (depending on requirements)

Service Competence

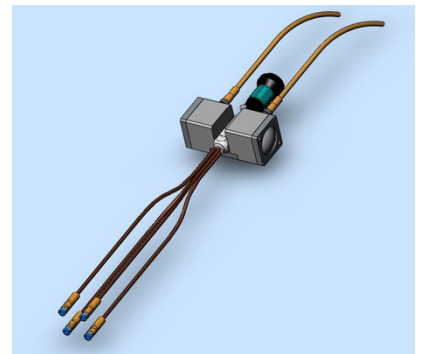

- Project Management
- Product Lifecycle
- Customer Service

Additional Information

» [Product Realization and Project Cockpit](#)

Four-armed fiber optic endoscope
