

Light is Vision

# 2015 International Year of Light and Light-Based Technologies

The UN General Assembly proclaimed 2015 as the International Year of Light and Light-based Technologies (IYL 2015).

The International Year of Light is a global initiative which will highlight to the citizens of the world the importance of light and optical technologies in their lives, for their futures, and for the development of society. It is a unique opportunity to inspire, educate, and connect on a global scale.

Light is also at the heart of Volpi's activities. For more than 60 years we develop and manufacture custom made light solutions for Life Science, In Vitro Diagnostic, Medical Technology and Industrial Automation.
